A note on the "A" Collection of the Paper so Ernest W. Gibson, Jr.:

The "A" Collection consists of those papers kept by Mr. Gibson while he was Governor of Vermont, 1947-1950, which were retained in the Public Records Division of the State and microfilmed by Mr. Olney Hill, Public Records Director. After the originals were kept in the Public Records Division for the required number of years, Mr. Hill offered them to the University Library. The microfilm of these papers is still in the Public Records Division.

The arrangement of these papers is the same as the microfilm. The folder titles or topics, which appear in our guide to the contents of these papers, were copied verbatim from the folders which were sent to the Library by Mr. Hill in 1969.

This "A" Collection is so labelled in order to distinguish it from the collection of other Gibson Papers presented to the Library by Ernest W. Gibson, III, which as of this date (August 1974) are not yet inventoried nor calendared nor analyzed.
